As a result, it is becoming easier for the government to maintain its current account balance. Besides, living standards of the expatriates' family members staying in the country are improving due to the remittances sent from abroad.

Impact on Women's Advancement: Women workers can get involved in different kinds of socio-economic activities, because of the solvency they will attain. 6.0 Recent Achievements, Activities, Output Indicators and Targets and Expenditure Estimates of the Departments/Agencies

6.1 Secretariat

6.1.1 Recent Achievements: Overseas Employment and Expatriates' Welfare Law, 2013 has been formulated to create opportunities for foreign employment and to ensure rights and welfare for migrants and their families. The Ministry of Expatriates' Welfare and Overseas Employment has recently enacted the "Policy on Expatriates Welfare and Overseas Employment 2016" which aimed at to provide a comprehensive labour migration framework with a particular focus on the protection of migrant workers. From FY 2012-13 to FY 2014-15, 13.26 lakh workers went abroad and US\$ 42.18 billion were received as remittances. Bangladesh is the first country among the SAARC region to establish *Prabasi Kayllan* Bank to reduce excessive migration cost. Soft loans with easy terms and conditions are being provided from this bank to meet the migration expenses of the workers going abroad. The compensation money provided to the families of the deceased has been raised from Tk. 100,000 to Tk. 300,000. Moreover, steps have been taken to rationalize the expenses incurred for migration. Workers are now being sent to Malaysia at a cost of Tk. 27,000 (Twenty seven thousands) only under the G to G agreement signed between two countries.
